

CheatFinder.app: Use AI to detect a cheater

CheatFinder.app cheating report. Abandon all hope ye who enter here.

WE DELETE YOUR DATA AFTER 30 DAYS! SO DOWNLOAD THIS PDF AND KEEP IT ON YOUR DEVICE.

The AI is finished reading your texts and it found the following results:

Total number of posts scanned: 27

Total number of posts longer than 60 characters: 18

Ratio: 66.67%

The higher the number of posts that are 60 characters or over, and the higher your ratio is, the more clear and reliable your cheating score will be.

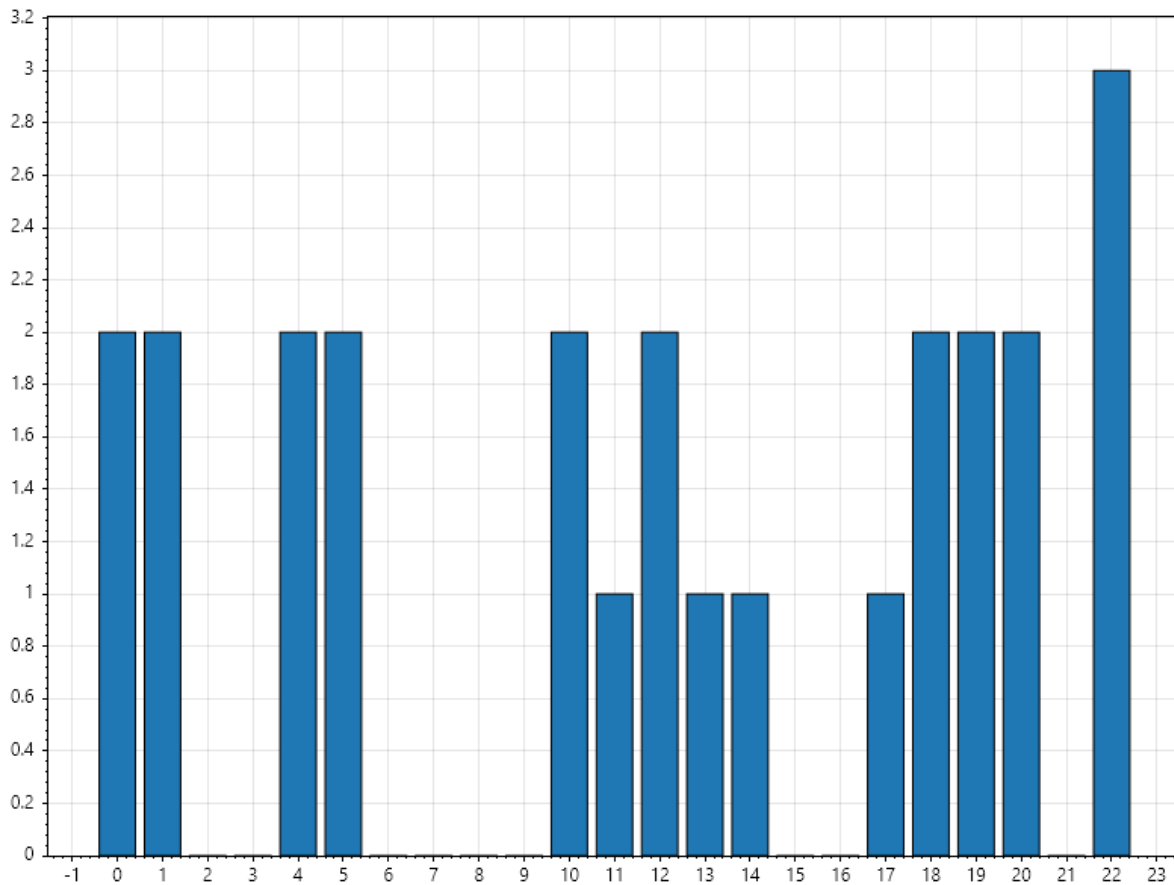

Remember, we drop all texts/posts less than 10 characters because they are useless and waste tokens.

If you don't see a text here, it means the AI didn't find anything, and you are in the clear! We only show you texts that have something bad in them.

Date	What the person said...	What the AI found	Alert	Our Explanation why this is bad	Cheat Points
	Don't worry about Bob.		Text was found saying not to worry about another man.	Perhaps the most classic sign of cheating in all of the known world, when someone tells you not to worry about another man, it's DEFINITELY a sign of cheating!	40.0
	I can't go on a date with you tonight because I spent all my money on... something I can't tell you.		Text was found talking about unexplained expenses.	Unexplained expenses means they are hiding purchases and dates for the other person they're cheating on you with!	20.0
	I have to stay late at work again tonight.		Text was found talking about staying late at work.	Nobody wants to stay late at work! Staying late at work all the time means they are using that 1-2 hour extra window to go on a date with someone else.	20.0
	pauses and looks up at the sky Do you think it might rain later?		Text was found talking about staying late at work.	Nobody wants to stay late at work! Staying late at work all the time means they are using that 1-2 hour extra window to go on a date with someone else.	10.0

Deadzone Detector

Above are all of your texts/posts with this person, graphed on a bar chart so you can look for 'deadzones', ie when they never text. This is a 24 hour format and, obviously, they will probably never text at 2 AM etc!

Use the deadzone detector to look for unexpected lower text counts, this will indicate repeated time spent with someone they're cheating on you with.

Please note: The deadzone detector only really starts to work if you have at least 500+ messages.

Your total cheating score:

90.0

What does that mean? A cheating score of 90.0 means:

Cheating **VERY VERY LIKELY!**

Things to remember and consider along with your cheating score:

- Timeframe. If you've been with your partner for a long time, it isn't fair to judge them based off of texts they made when you were only together less than a month.
- Context is everything. (Please hold your MGS2 references for now.) While A.I. is currently capable of understanding context, for it to be reliable it has to scan mass amounts of text and compare them to the rest of the text over and over, and that takes a MASSIVE amount of tokens.
- Ironic quotes, being ironic, or being playful. The A.I. still has trouble detecting when someone is making a joke. Hell, most humans can't tell when it's words on a phone screen.
- Talking about what someone else said. The A.I. has a hard time when someone is talking about someone else.

Remember, all results are 100% confidential.

Things to do if you got a low score:

- Get over yourself, lol. Seriously, it wasn't as bad as you thought.
 - You were probably being paranoid.
 - You're welcome! :)
-

Things to do if you got a high score:

- Don't kill yourself. If you kill yourself, you can't come back to our platform and spend more money.
- Don't get mad at me. Realize that I completely helped you out and scanned through hundreds of texts and gave you professional AAAA+ tier cheating advice.
- You couldn't get this advice if you paid tens of thousands to a popular cheating Youtuber.
- Go to sleep. You'll feel better about it tomorrow.
- Drop the piece of shit and find someone else to date.
- Find someone to give you a hug. Not me though, I'm a computer program \o/
- Tell the world about the person and use their name. Remember, it's not slander or libel if it's the truth. Make the world a more honest place.
- If you -do- end up doing something crazy, don't mention us!
